# Flomat Bagfilla filling & discharging

## FIBC's

“ **Flomat Bagfilla** pioneers of FIBC handling systems technology, have developed a unique portfolio of patented solutions and equipment, that can be tailored to suit individual customer requirements, diversity of bag designs, material characteristics, environmental considerations & industry standard. Flomat's industry specific process knowledge, technologies & expertise, comprehensive test facilities, extensive in house design and manufacturing capabilities, is also able to deliver **Total FIBC FILLING & DISCHARGING Solutions** ”

### FILLING

- Hygienic/Pharma ●
- Fully Mobile Units ●
- FLT/Auto Removal ●
- Hang Weigh/Vibration ●
- Feed & Control Systems ●
- High Speed 60 FIBC's/hr ●
- Bag Squeezers
- LIW/Volumetric
- FLT/Hoist Loading
- Demountable/Mobile
- Sack Tip Combinations
- High Containment/Pharma's

### DISCHARGING

division

# Neu conveying Technologies

“Fairport NEU Solutions, internationally recognised for their leading technology in pneumatic conveying and material processing systems for the food, pharmaceutical, plastics and chemical industries, they provide expert consultancy and complete project management facilities in equipment and process control systems design, right through to plant manufacture, installation and commissioning; including a site support service programme, which covers all aspects of dry products, liquids and mixed product handling, to deliver **Complete CONVEYING Solutions**”

- Pneumatic Conveying ●
- Mechanical Conveying ●
- Dust Control Systems ●
- Explosion Protection ●
- Bulk Storage and Conditioning ●
- Unloading and Loading ●
- Drying and Cooling ●
- Grinding and Milling ●
- Sieving and Grading ●
- Batching and Weighing ●

# process materials handling division

- Systems Feasibility, Specification and Design Detailing
- Standard and Specialised Equipment Manufacture
- Project Management and 3rd Party Procurement
- Total Systems Design and Process Control Integration
- Full Plant Engineering, Installations and Commissioning
- Complete Maintenance, Upgrades, Spares & Servicing

“Fairport Process Materials Handling Division aims to be ‘A First Choice Supplier’ to this industry, through a clearly focused, brand led and industry specific strategy, that not only embraces innovative developmental technologies, imaginative engineering and long term collaborative partnerships, but also totally inclusive customer site services, by which profitable growth is achieved through leadership and excellence”

## Fairport Group Overview

partnership • resource • accountability

“Fairport is a long established, highly experienced and well respected ‘Brand Name’ in the International Construction, Aggregates, Materials Handling, Process Engineering and Utilities Industries, which through its unique ‘PRO-TEN Project Partnership Programme’, delivers a complete, fully integrated, customer inclusive and totally collaborative strategic partnership in **‘Project Engineering – Site Operations & Facilities Management’**, across a wide range of markets in both the private and public sectors”
